SUMMARY

I am a dedicated and conscientious full stack developer with extensive experience working remotely, well developed analytical skills, a high level of motivation, and a background in computer science. My experience in agile development combined with my nursing background allow me to excel at assessing problems and recognizing solutions, as well as planning, implementing, and evaluating outcomes. My communication skills give me the ability to understand client needs and convey those requirements to stakeholders as features.

SKILLS

- Node.js • JavaScript • jQuery • git • SQL • PostgreSQL • HTML5 • Bootstrap • ejb • Python •
- Ruby on Rails • Flexbox • Full-Stack Development • Express.js • Elixir • Phoenix • Flask •
